

Annex 7: Law Faculty Curricula Relevant to Justice Service Delivery

Specific Courses for Preparation to Become a Judge or Prosecutor	Practical Legal Skills Development	Legal Writing Courses	Legal Clinics	Observation/Work in Court or Prosecutor's Office	Legal Ethics Courses	EU Law ⁹⁷⁶ Courses
UNIVERSITY OF BELGRADE						
Students can choose the judicial-administrative track in their third year. This track provides specialized courses (criminalistics, investigation techniques, and administrative procedures, criminal liability of legal entities, misdemeanor law, and legal medicine/forensics).	Students must choose one legal skills course per semester during their fourth year (options include nomotechnics and writing of legal acts, legal clinics, case studies, and trial simulation.). Methodology for positive legal courses includes 'exercises' where students can gain practical knowledge.	There are four optional legal skills courses which students can select during the two semesters of the fourth year. Students can graduate without completing a legal writing course. Teaching focuses on practical matters, with some theory.	This is one of four optional legal skills courses that students can select in their fourth year. Students can graduate without completing a legal clinic practicum. The legal clinic includes several segments, including criminal and civil. Students meet with citizens who need legal aid, attorneys who tutor them. Professors manage segments of the clinics.	In their final semester, students must have practice in either the judiciary/administration or in a company.	Two hours per week of legal ethics courses are available and optional in the third year. The teaching methodology is mixed between lectures and discussions.	Introduction into European Integration in the first year is a mandatory course. Master studies: Master in EU Integration, held in English language, master course in European Integration Law.
UNIVERSITY OF NIŠ
